TEJUS KUMAR VERMA

SOFTWARE DEVELOPER | PYTHON DEVELOPER | AI & ML

Gorakhpur, Uttar Pradesh | +91 9795356257 | tejusverma032@gmail.com

PROFESSIONAL SUMMARY

Third-year B.Tech Computer Science and Engineering student specializing in Artificial Intelligence and Machine Learning, with practical experience in Python programming, software development, machine learning and web technologies. Completed internships in Artificial Intelligence and Web Development, with hands-on project experience in predictive modelling, billing applications, e-commerce websites and software systems. Strong foundation in programming, object-oriented programming, data structures, database management and problem solving.

TECHNICAL SKILLS

Programming	Python, Java, C, C++	**Web Development**	HTML, CSS, JavaScript
Core CS	DSA, OOP, DBMS, Problem Solving	**AI & ML**	Machine Learning, Data Analysis, Predictive Modelling, NLP
Libraries	Pandas, NumPy, Scikit-learn	**Tools**	Git, GitHub, VS Code, Streamlit, Microsoft Office

INTERNSHIP EXPERIENCE

Artificial Intelligence Intern — **13 Jul – 14 Aug 2026**
Codec Technologies Pvt. Ltd. — *AICTE & ICAC Approved*

- Completed a one-month Artificial Intelligence internship under an AICTE and ICAC approved programme.
- Developed a Customer Churn Prediction project using Python and Machine Learning.
- Performed data preprocessing, exploratory data analysis, model training and performance evaluation.
- Worked with Pandas, NumPy, Scikit-learn and Streamlit.

Web Development Intern — **Jul – Aug 2026**
Thiranex EduTech LLP — *Web Development*

- Worked on portfolio and e-commerce website development, focusing on user interface and website functionality.
- Developed billing software for SD Wellers.
- Applied web development and software engineering concepts to practical applications.

PROJECTS

Customer Churn Prediction — *Python, Pandas, NumPy, Scikit-learn*

Developed a machine learning pipeline using telecom customer data. Implemented Logistic Regression and evaluated classification performance, achieving 74.2% accuracy and 0.841 ROC-AUC.

Billing Software – SD Wellers — *Software Development*

Developed billing software to support billing operations and transaction management.

E-Commerce & Portfolio Websites — *HTML, CSS, JavaScript*

Developed web-based applications focusing on responsive website structure, user interface and functionality.

Jarvis AI Assistant — *Python*

Built a voice-interactive virtual assistant as a software development project.

Bank Management & Smart Attendance Systems — *Software Development*

Developed applications involving account management, transaction handling and digital attendance tracking.

EDUCATION

Bachelor of Technology (B.Tech) — **2024 – 2028**
Computer Science and Engineering
Specialization: Artificial Intelligence & Machine Learning
Roorkee Institute of Technology, Roorkee
CGPA: 6.5/10 — Currently in 3rd Year

CERTIFICATIONS

- Oracle Cloud Infrastructure Generative AI Professional
- Microsoft – Fundamental AI Concepts
- IIT Bombay – C Programming (Spoken Tutorial)
- IIT Roorkee – Internet of Things: Concepts to Deployment
- Deloitte – Cyber Job Simulation
- NASSCOM – Artificial Intelligence Course
- Grant Thornton Bharat – Python Programming
- IIT Bombay / EduPyramids – Advanced C++ Training
- Citi – Technology Software Development Job Simulation

Core Strengths: Analytical Thinking, Problem Solving, Team Collaboration, Communication, Adaptability

Languages: English, Hindi
